Product Guide

We are a leading manufacturer of signal conditioners.

The product series introduced here covers only some of our products. For other products, please visit our website.

Signal Conditioners

Converting measured signals to desired signals.

Two-wire Signal Conditioners

Signal conditioners of on-site installation type with no power source required.

Power Monitoring Components

Calculating, displaying, and outputting power quantities.

Indicators

Graphic panel without dedicated display, expressive digital panel meters and bargraph meters.

Tower Lights

Tower lights provided with communicating function.

Limit Alarms

Monitoring measurement signals and outputting alarm contact signals.

Remote I/O

Operating as an interface of measured signals with field networks.

Temperature Controllers

Temperature controller models of on-panel type and in-panel type.

Paperless Recording System

Paperless recorder to which the latest IT technology is applied.

BA & Energy Monitoring Components

From closed systems to open systems.

Software (SCADA)

Data collection software

PID Control Components

New PID controllers incorporating the latest technology.

Telemetry System

A remote transmission and monitoring system using diverse types of media, such as dedicated lines, telephone lines, or wireless lines.

IoT Components

Products with a variety of functions for IoT.

Final Control Components

A proposal for mechatronics conversion of the final control elements.

Lightning Surge Protectors

Lightning surge protectors designed specifically for electronic equipment.

LED Lighting & UVC LED

A universal LED tube that does not require rewiring of existing lamp holders.

LED lighting and UVC LED are products of MGMT Co., Ltd. Limited to Japanese market

Five Service Policies

Established under the idea of Customer-First principle

All our products and services are provided outside Japan through our authorized distributors. We are trying to enhance the customer satisfaction with the following five service policies. As to the terms and conditions of a specific service, consult us for details.

1. Continued Products Availability

- We have basic policy of not to discontinue our products without providing compatible replacements.
- We always strive to procure all the electronic parts for our products. When a certain electronic part is no longer available, we will make best effort to provide a product compatibly replaceable with the existing product as long as there is substantial demand for such product.

2. Fast and Precise Delivery

- The standard manufacturing lead time for most of our products is 5 days.
- Quick Service Center is available for 24-48 hours shipment.
- Once a delivery time is promised, the customer can of course count on us to deliver them precisely on time.

3. Special Specifications Service with no extra charge

- Special specification products can be supplied without additional charge for major product series, except for those requiring excessive labor or materials.
- We are putting our effort into expansion of the scope of Special Specifications Service to all of our products. Special Specification Service will be available to more product series in the future.

For detailed terms and conditions applicable to each specific product, consult us.

4. Special Repair Service

- During the service period of 36 months from the date of shipment, we will provide free repair service for a damage or malfunction caused by a user's mistake when we determine at our discretion that cause of the damage or malfunction falls into the "Service Coverage" set out as conditions of this service. Such free repair service will be limited to one repair per cause of the damage or malfunction.

For detailed terms and conditions applicable to this service, consult us.

5. Factory Setting Service with no extra charge

- Configuration setting for programmable products is free of charge upon the customer's request for once when ordering, except for those requiring special engineering (e.g. multi-function PID controllers).

For detailed terms and conditions applicable to each specific product, consult us.
