■ INSTRUCTION MANUAL

This manual describes necessary points of caution when you use this product, including installation, connection and basic maintenance procedures.

POINTS OF CAUTION

■ CONFORMITY WITH EU DIRECTIVES

- This equipment is suitable for Pollution Degree 3 and Installation Category III (24V DC power model), or Pollution Degree 2 and Installation Category II (100 240V AC power model). Reinforced insulation (network to power: 300V) is maintained. Prior to installation, check that the insulation class of this unit satisfies the system requirements.
- Altitude up to 2000 meters.
- The equipment must be installed such that appropriate clearance and creepage distances are maintained to conform to CE requirements. Failure to observe these requirements may invalidate the CE conformance.
- The actual installation environments such as panel configurations, connected devices, connected wires, may affect the protection level of this unit when it is integrated in a panel system. The user may have to review the CE requirements in regard to the whole system and employ additional protective measures to ensure the CE conformity.
- The equipment is intended to be installed in a industrial environment defined by EN 60947-5-1.

■ POWER INPUT RATING & OPERATIONAL RANGE

 Locate the power input rating marked on the product and confirm its operational range as indicated below:

 $100 - 240 \mathrm{V} \; \mathrm{AC} \; \mathrm{rating:} \; 85 - 264 \mathrm{V}, \, 47 - 66 \; \mathrm{Hz}$

approx. 7.5VA at 100V AC approx. 10VA at 200V AC approx. 11VA at 240V AC

24V DC rating: 24V ±10%, approx. 5W

■ GENERAL PRECAUTIONS

- Before you remove the unit or mount it, turn off the power supply for safety.
- The unit must not be subjected to external force.
- Do not rub the unit with organic solvent like paint thinner

■ ENVIRONMENT

- Indoor use.
- Do not install the unit where it is subjected to continuous vibration. Do not subject the unit to physical impact.
- Environmental temperature must be within -10 to +55°C (14 to 131°F) with relative humidity within 30 to 90% RH in order to ensure adequate life span and operation.
- Mount the unit on a flat and robust plate.
- Lamps are omnidirectional.
- The buzzer sound is directional in front of the unit.

■ INGRESS PROTECTION (IP65)

- The IP code is conformable when the unit is mounted vertically, and the control panel cover is locked. The compartment, where connectors are located, is not protected.
- When opening the control panel cover, avoid humidity and dust penetration. Dry and clean it if condensation is formed, and close the cover locking tightly.
- In order to protect ingress of water or dust into the bottom compartment, mount the unit on the flat plane, and be sure that the gasket does not roll back or dust is not on the gasket.

■ WIRING

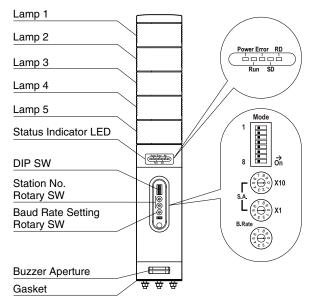

- Do not install cables close to noise sources (relay drive cable, high frequency line, etc.).
- Do not bind these cables together with those in which noises are present. Do not install them in the same duct.

■ AND

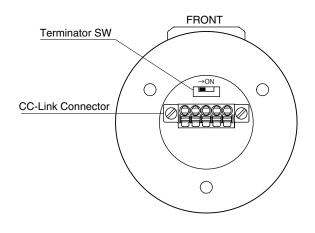

The unit is designed to function as soon as power is supplied, however, a warm up for 10 minutes is required for satisfying complete performance described in the data sheet.

COMPONENT IDENTIFICATION

■ FRONT VIEW (with the cover open)

■ BOTTOM VIEW

■ STATION NO.

Station No. is selected between 1 and 64 in decimal. The left switch determines the tenth place digit, while the right switch does the ones place digit of the address.

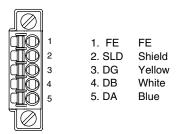

- Baud Rate Setting

■ BAUD RATE

Baud Rate is selected with the rotary switch.

■ CC-Link CONNECTOR

To use the terminating resistor, turn the switch ON, and OFF to invalidate. (Factory setting OFF)

INDICATORS

■ STATUS INDICATOR

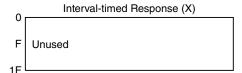

| Power | Run | Error | SD*1 | RD | STATUS*2 | |
|-------|-----|-------|------|--------|--|--|
| ON | ON | BL | BL | ON | Communicates normally with occasional CRC errors due to noise interference. | |
| ON | ON | BL | BL | ON | Communicates normally but the Baud Rate and/or Station Address switches failed. Error indicator blinks approximately in 0.5 seconds intervals. | |
| ON | ON | BL | BL | OFF | | |
| ON | ON | BL | OFF | ON | CRC error found in the received data. Unable to respond. | |
