

# ORDERING INFORMATION

PLEASE FILL IN THIS SECTION

Model \_\_\_\_\_  
 Company \_\_\_\_\_  
 Name \_\_\_\_\_  
 P/O No. \_\_\_\_\_

# MODEL : FX, KX, 7FX, JFX1, WFX, VFX

FACTORY USE ONLY

Job No. \_\_\_\_\_  
 Ser No. \_\_\_\_\_  
 Sales \_\_\_\_\_  
 Approved by (Sales office) \_\_\_\_\_  
 Issued by (Sales office) \_\_\_\_\_

**INSTRUCTION**

Mark  for your equation with  among the following. For other characteristics, use the table below.  
 There is no need of this Ordering Sheet for the linear I/O characteristics.

- Orifice, Venturi      Output =  $\sqrt{\text{Input}}$
- Parshall flume      Output =  $(\text{Input})^2$
- V-notch weir      Output =  $(\text{Input})^{5/2}$
- Suppressed weir      Output =  $(\text{Input})^{3/2}$

**INPUT/OUTPUT CHARACTERISTICS ( 1 - 50 )** Fill in the following table referring to the example below. Unit in % or in the selected spec.

n	INPUT ( )	OUTPUT ( )
001		
002		
003		
004		
005		
006		
007

**EXAMPLE**

INPUT (mA)	OUTPUT (mA)
8.00	9.36
12.00	13.47

INPUT (mA)	OUTPUT (mA)
16.00	16.94
20.00	20.00

100 points max. within the range of -15.00 – +115.00% of the full-scale input or output ranges. Unit (% or selected spec; e.g. mA in the above example).
